

Living in Alberta these days, it is getting tougher and tougher to remain silent.

I do not recognize the Jesus being proclaimed here, nor the exclusive, racist, divisive and hateful agenda espoused. This group has kidnapped the biblical Jesus to create their own agenda inconsistent with the gospel.

Love of neighbour, compassion for the outcast and support of the wounded are clearly missing. This distortion must be challenged.

Christian nationalism was never the intent of Jesus. Diversity, equity and inclusion are the gospel's message.

We are better together. Silence is complicity.
